Education

Columbia College Chicago   Chicago, IL
Major: Computer Animation   Projected Graduation Year: 2025

Coursework

The Businesses of Animated Content(Fall 2022)
• Created a pitch slide for an original animated IP using PowerPoint.
• Created and organized an original production bible using Microsoft Office.
• Used Microsoft Excel to create and organize a Production Schedule and Projected Budget
sheet.

Animation Keyframing 1 and 2(Fall 2021,Spring 2023,Fall 2024)
• Learned how to animate 3d character rigs using Autodesk Maya.
• Understanding how to import character rigs, textures, and objects.
• Exported play blasts and converted them into .mp4 files using Adobe After Effects.

Storyboarding for Animation(Fall 2022)
• Imported drawings and audio files then exported final works in Storyboard Pro.
• Created original Storyboard drawings and finalized Animatics.
• Edited animatics with timelines settings, sound effects, and voice lines.
• Learned about camera movement, character placement, and drawing out written scripts
to visual drawings.

Illustration: Concept art 1(Fall 2023)
• Learned about creating different concept art ideas based on specific tasks and
directions provided by a client.
• Created pieces such as character designs, murals, and backgrounds using programs like
Procreate and Clip Studio Print.
• Understood feedback and used it to improve drawings into finished pieces.
